Innovation – Business Award

Aim: To recognise innovation and adaptability of a successful business innovation introduced after 30 January 2016, such as business model, market or system process, management or people innovation.

Questions (500 words maximum per question)

1. Describe the innovation or adaptation in your business including research, development and implementation.
2. Describe how the innovation or adaptation has provided your business with a competitive market advantage.
3. Describe the impact of your innovation or adaptation in terms of the planet, people, productivity and/or profit.
