

BREAKTHROUGH

Businesses greater than 15 FTEs

South Australian Research & Development Institute

Innovation – Food Award

Aim: To recognise innovation and adaptability through food technology.

Questions (500 words maximum per question)

1. Describe the technology used to innovate or adapt a product including research, development and implementation.
2. Describe how food technology product innovation or adaptation has provided your business with a competitive advantage.
3. Describe the impact of your food innovation or adaptation in terms of the planet, people and/or productivity.
